PERSONAL STATEMENT

Software Design graduate currently pursuing a Postgraduate Diploma in Cybersecurity, with hands-on experience developing full-stack web applications using JavaScript, React, Node.js, Express and MySQL. Experienced in designing RESTful APIs, implementing JWT authentication, relational databases and access-controlled applications with additional foundations in networking, Linux and cloud computing. Seeking a graduate or junior technology role where I can apply my software development skills while building deeper expertise in cybersecurity and cloud technologies.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, PHP

Web Development: React, HTML5, CSS3, Tailwind CSS, Bootstrap

Back-end & APIs: Node.js, Express.js, RESTful APIs, Sequelize ORM, JWT Authentication

Databases: MySQL, MongoDB

Networking: Networking Fundamentals, TCP/IP, DNS, DHCP

Tools & Platforms: Git, GitHub, Linux, Postman, Jira, Vite, XAMPP, Autopsy, Docker

PROJECTS

DogoHome Platform | Node.js, Express.js, JS, MySQL, React.js | Individual – Final Year Project

- Designed and built a cloud-based full-stack web application solving a real-world problem, replacing scattered Facebook based shelter listings with a centralized, searchable platform across Ireland.
- Implemented three distinct user roles (User, Shelter, Admin) each with separate JWT authentication flows and access-controlled API endpoints.
- Designed the relational database structure and integrated application functionality using MySQL and Sequelize ORM.
- Architected 30+ RESTful API endpoints, fully tested with Postman using unit, integration and user acceptance testing, documented pass/fail results for each endpoint.
- Applied Agile development practices using Git version control, iterative development, Scrum principles and continuous feedback from an academic supervisor.
- Achieved 70% on a 15-credit module – The highest weighted module in the final year.

HDD Destruction Website | PHP (Slim Framework), MySQL | Team – Scrum Master

- Built a full-stack web application for an HDD destruction service
- Implemented secure authentication and relational database design
- Developed and tested RESTful APIs using Postman
- Led team as Scrum Master using Jira

EDUCATION

Postgraduate Diploma in Science in Cybersecurity

CCT College Dublin | 2026 – Present

Award: QQI Level 9 Major Award

Status: In Progress

BSc (Hons) in Software Design with Artificial Intelligence for Cloud Computing

Technological University of the Shannon: Midlands (TUS) | 2020 – 2024

Relevant Modules: Distributed Systems (81%) | Service Oriented Architecture (74%) | The Engineer in Society (73%) | Networks (68%) | Data Visualization (66%) | Security (64%) | Data Mining & Machine Learning | Databases

Final Year Project: DogoHome - Cloud-based web platform for pet adoption and shelter management (MySQL, Express.js, React.js, Node.js)(70%, 15 credits)

Award: Second Class Honours Grade (2.1)

Certificate of Completion in Business and IT

St. Conleth's Community College, Newbridge, Co. Kildare | Award: 2016 | NFQ Level 5

Notable Results: Web Authoring – Merit | Communication – Distinction | Human Resources – Distinction | Book-keeping (Manual & Computerized) – Distinction | Marketing Practices – Pass | Business Administration – Pass | Business Law - Pass

WORK EXPERIENCE

Stock Room Assistant & Sales Associate | Dune, Kildare Village | November 2024 – June 2025

- Worked in a fast-paced retail environment, coordinating with team members to manage stock flow and ensure smooth daily operations.
- Optimized stockroom organization to improve efficiency, verified deliveries against manifests and resolved discrepancies.
- Contract repeatedly extended due to strong performance in a high-volume seasonal environment.
- Developed communication, teamwork and problem-solving skills with a consistent focus on accuracy and process improvement.

Key Holder & Customer Service Assistant | Gala Petrol Station | August 2015 – January 2017

- Served as a key holder responsible for opening and closing the station and securing the premises
- Handled till operations, including cash and cards, performed cash drops and end-of-shift balancing.
- Provided high-quality customer service and maintained shelves, stock levels and product freshness checks.

Sales & Fundraising Representative | C3 Marketing (Irish Cancer Society) | January 2015 – April 2015

- Conducted door-to-door fundraising and sales campaigns, consistently met daily targets of 120+ contacts.
- Educated potential donors, handled objections professionally and participated in team strategy meetings.
